Summary

Digital Marketing & Operations Specialist with 1.5+ years of experience spanning Ad Operations, Content Strategy, and Technical SEO. Proven track record at JioHotstar managing real-time back-end ad trafficking during live mega-events (IPL, ICC World Cup) for brands like Google Gemini, ChatGPT, BMW and more. Skilled in driving in-app platform engagement for India's top reality shows (Bigg Boss, Splitsvilla, Khatron Ke Khiladi along with other blockbuster movies and series) and building custom workflow automation to streamline reporting and QA.

Education

B.E. in Information Technology, St. Francis Institute of Technology 2021 – 2025 | Mumbai

Experience

JioHotstar

Content Marketing & Operations Executive (July 2026 - Present)

- Executed Go-To-Market (GTM) content promotion strategies across 20+ major GEC titles, blockbuster movies, and India's top reality franchises (Bigg Boss, Splitsvilla, Khatron Ke Khiladi), boosting platform visibility and user retention.
- Engineered an n8n workflow using Reddit API to fetch top 50 discussions per title, running automated audience sentiment analysis to prioritize release marketing, gauge viewer reception, and optimize banner/thumbnail creative selection to maximize click-through rates (CTR).
- Automated daily performance reporting workflows by building custom Google Apps Scripts and API integrations (n8n) to pull Mixpanel data directly into Google Sheets, eliminating manual data entry and reducing reporting turn-around time by 30%.
- Orchestrated 50+ targeted in-app user engagement campaigns utilizing push notifications and homepage merchandising (banners, thumbnails, billboards, skinnies, featured trays) to drive higher content discovery.
- Collaborated cross-functionally with 4+ internal teams (Creative, Design, Analytics, Setup) to manage end-to-end creative asset lifecycles and ensure 100% on-time rollout for major content launches.
- Monitored viewer engagement KPIs using Mixpanel and Google Sheets, conducting in-depth analysis of playback trends and user drop-offs to refine content recommendations.
- Delivered weekly stakeholder performance reports, translating platform consumption metrics into actionable insights to guide future marketing investments.

Ad Operations Consultant (Jan 2026 - June 2026)

- Managed real-time back-end ad trafficking and execution for 1,500+ digital advertising campaigns during high-traffic mega broadcasts (IPL and ICC Cricket World Cup).
- Executed instant ad insertions during live match breaks (over transitions, wicket falls) for top global advertisers including Google Gemini, ChatGPT, Titan, BMW, and Amazon Prime Video.
- Launched diverse Video and Display campaigns across Pre-roll, Mid-roll, Masthead, and Native formats, maintaining an 85%+ Video Completion Rate (VCR) throughout the campaign lifecycle.
- Cut campaign under-delivery by 12% by strategically adjusting pacing strategies across CPM, CPC, and CPD pricing models.
- Engineered an Excel-based bulk ad verification framework to validate CTA details, third-party trackers, and JSON datasets across ad assets, slashing manual QA onboarding effort by 75% while securing a 99%+ delivery accuracy rate.
- Monitored real-time ad performance analytics during live sports broadcasts to instantly flag delivery anomalies, resolve pacing issues, and maintain uninterrupted ad serving under peak traffic.
- Partnered cross-functionally with Sales, Compliance, and Core Engineering teams to streamline technical ad integrations and guarantee flawless execution against strict Service Level Agreements (SLAs).

Sudha Solutions

Technical SEO Analyst Intern 07/2025 – 12/2025

- Conducted keyword research and search intent analysis for brands including Colorbar, Orra, VLC Spices, and Shramdaan using GA4, SEMrush, and Google Search Console, driving a 20%-30% increase in organic reach across client portfolios.
- Built SEO performance reports to track keyword rankings and traffic patterns, successfully ranking 50+ high-intent keywords in the Top 10 SERPs.
- Audited technical SEO infrastructure for client websites, resulting in a 25% improvement in Core Web Vitals and mobile page load speeds.
- Enhanced 7+ client websites across WordPress, Shopify, and Magento to improve internal link equity and increase crawling efficiency by 15%.
- Resolved structural issues affecting 200+ backlinks, improving crawlability, indexation, and overall domain authority.
- Configured tracking in GA4 and Search Console while auditing 300+ URLs for metadata accuracy and search performance.

- Executed competitor analysis and market research to identify emerging trends and content gaps across multiple industries.
- Engineered an automated AI Overview tracking system using APIs and Google Sheets to monitor brand and competitor presence in Google AI Overviews, identifying content gaps and ranking disparities to optimize GEO (Generative Engine Optimization) strategies.
- Collaborated with clients to present SEO findings, translate technical insights into actionable recommendations, and align optimization strategies with business goals.

Skills

Tools & Platforms:

- Google Analytics 4 (GA4), Google Search Console, Screaming Frog SEO Spider, SEMrush, Ahrefs, Google Ads, Meta Ads Manager, SerpApi, MS Excel, Power BI, WordPress, Shopify, Magento, n8n, Mixpanel

SEO & Analytics:

- Technical SEO, On-Page SEO, Off-Page SEO, Keyword Research, SERP Analysis, SEO Audits, Backlink Analysis, Internal Linking, Schema Markup, Core Web Vitals, Competitor Analysis, Content Gap Analysis

Ad Operations & Marketing:

- Campaign Management, Campaign Optimization, Audience Analysis, Digital Advertising, Ad Trafficking, Ad Serving, Brand Lift Studies (BLS), CPM, CPC, and CPD Models, KPI Tracking, Campaign Reporting, Go-To-Market (GTM) Strategy, In-App Merchandising, Audience Engagement

Technical Skills:

- Python, HTML, CSS, PHP, JSON, Data Validation, Reporting Automation, Excel-Based Automation, SerpApi, REST APIs

Projects

Social Sentiment & Asset Merchandising Engine | n8n, Reddit API, Google Sheets

- Developed an automated n8n workflow integrating Reddit API to ingest and analyze audience sentiment across the top 50 discussion threads per OTT title release.
- Informed A/B homepage merchandising decisions (banners, thumbnails, featured trays) based on real-time viewer sentiment, directly optimizing click-through rates (CTR).

Automated Ad Asset & JSON Validation Framework | Google Apps Script, JSON, Excel, Quality Assurance

- Built an automated verification tool to parse complex, unvalidated JSON ad payloads into clean Google Sheets dashboards for IPL and World Cup campaigns.
- Enabled non-technical teams to easily audit raw ad strings (CTAs, landing page URLs, visual assets) without engineering support, reducing configuration errors by 95%.

AI Overview (AIO) Brand & Competitor Gap Analyzer | n8n, Python, SerpApi, Google Sheets, GEO

- Engineered an automated n8n and SerpApi scraping pipeline to track brand mentions and competitor citations within Google AI Overviews across 300+ target keywords.
- Automated competitor gap analysis, generating real-time diagnostic reports that highlighted missing entities and schema gaps to optimize Generative Engine Optimization (GEO) strategies.

Leadership experience

Public Relations and Marketing Head (From exec to head) 07/2022 – 06/2024

- Led PR and marketing for 5 college-wide events including cultural, sports, and technical fests, driving participation from 700+ attendees nationwide to the annual hackathon.
- Secured 15+ corporate sponsorships over 2 years, building partnerships with prominent brands such as Red Bull, Mogu Mogu, Hell Energy, and GeeksforGeeks.
- Created and executed social media campaigns on Instagram, generating 100K+ views through organic reels and promotional content strategies.
